Free Sample: January 2027 Shift Calendars

Printable January 2027 month pages for four common rotations, generated by the **2027 Shift Worker Planner** spreadsheet:

- Page 2: Pitman 2-2-3 (12-hr days)
- Page 3: 4-on-4-off
- Page 4: DuPont
- Page 5: 24/48 (24-hour shifts)

These samples use example start dates (pattern day 1 = Jan 1, 2027) and an example partner on 4-on-4-off, so your team's actual days may be shifted. The full planner lets you pick your rotation, enter one date you worked and your team offset, and fills in the whole year — plus a "both off" view for a partner, a pay & overtime estimate (with a California preset), pay-period totals and a sleep log. It works in Excel and Google Sheets.

Codes: D = day, N = night, 24 = 24-hour shift, O = off. "Both off ♥" = you and the example partner are both off.
